

# BEDDING PLANT TRIALS

## COOL SEASON 2010

Walt Disney World Nursery  
P.O. Box 10,000  
Lake Buena Vista, Florida 32830-1000

## DISNEY'S HORTICULTURE 2010 COOL SEASON BEDDING PLANT TRIALS

The Walt Disney World Trial Garden was exceptionally wet and cold this season. From October 1, 2010, through March 31, 2011, temperatures ranged from a daytime high of 91° F. in mid October to a low night temperature of 24° F. on December 28. There was a total of 67 hours below freezing over 9 events. It was quite unusual to have most of our cold weather and several freezes in the month of December. Overall, this winter was slightly warmer than last winter. The total rainfall during this period was 15.16 inches. We had 0 inches of rain in October. March was our wettest month bringing us almost 8 inches of rain.

Our Cool Season Trial Garden included 181 different cultivars. Please remember to check the "overall" column for an asterisk, which denotes cultivars that performed exceptionally well. A total of eleven cultivars rated the best of the best.

We sincerely appreciate those companies that make our evaluation process possible. We would also like to thank those of you that make our efforts worthwhile by reviewing the data and using the knowledge to select and promote superior plants.

GENUS SPECIES CULTIVAR	SOURCE	OVER	FLOWER COMMENTS	PLANT		UNIFORMITY		PERCENT	DISEASE RESISTANCE	LIGHTPLANT	DATES			DAYS REMOVED	TESTED	COMMENTS
				HT	DIA						PEAK					
<i>Angelonia angustifolia</i> 'Angelface Blue'	Proven Winners	E	1 1/4" flower, 3" spike, purple	22"	16"	E	E	E	E	SUN	1/11/2011	3/1/2011	3/31/2011	80		Full plants, long-lasting, flat open faces
