Providing an indoor temperature controlled environment in which to load smaller vehicles with plants is a very important service we provide our customers. Your order, complete with branded variety tags will be waiting for you when you arrive (along with a friendly smile, and how about a hot cup of coffee)

Our shipping docks can accommodate even the largest trucks to quickly load larger orders and have your truck off and rolling with quality liners.

Scheduled appointments mean less waiting for you

This is our favorite shipping method because we know it saves a great deal of money on freight expenses for you, but also gives us the opportunity to meet our customer face-to-face and gain a better understanding of your needs.

We look forward to having you visit us in the near future - if you've never considered picking up product...check the savings and benefits, it may just be your best solution to high freight costs.

DIRECTIONS TO FOUR STAR GREENHOUSE

Finding us is easy! Located near many major areas

- **35 miles from Ann Arbor, Michigan (approx: 43 minute drive)**
 - **37 miles from Detroit, Michigan (approx: 43 minute drive)**
 - **36 miles from Toledo, Ohio (approx: 41 minute drive)**
 - **23 miles from Dundee, better known for Cabela's (approx: 35 minute drive)**
- Cabela's has become the number one attraction in Michigan. If you love the outdoors or just want to have an amazing retail experience, plan on stopping off to Cabela's while you're in the area. If you're picking up plant material, we would recommend visiting Cabela's before coming to Four Star...you might just not want to leave and we would hate to see plant material sitting in a vehicle for hours! On the flip-side, if you go to Cabela's first, please don't forget that you have plant material waiting for you at Four Star. It's obviously important that you are on time for your customer pickup ...hmmmmmmm... maybe I should not have mentioned Cabela's??
